

**TRUCK, LIGHTWEIGHT AND TRUCK, LIGHT - ALL TYPES - LAND ROVER 110 4X4  
AND 6X6****INSPECTION OF LAND ROVER 110 4X4 AND 6X6 AFTER EXTENDED FIELD EXERCISE****EQUIPMENT INSPECTION AND EXAMINATION DATA**

This instruction is authorised for use by command of the Chief of Army. It provides direction, mandatory controls and procedures for the operation, maintenance and support of equipment. Personnel are to carry out any action required by this instruction in accordance with EMEI General A 001.

**INTRODUCTION**

1. During extended field exercises involving sustained cross country activity, damage may occur to vehicles resulting in unsatisfactory performance. A vehicle safety inspection prior to departing the field training area will provide commander's assurance that vehicles are safe to operate on public roads; this is critical where vehicles are expected to travel long distances to parent units.

2. **Associated Publications.** For maintenance and repair procedures, reference may be necessary to the latest issue of the following EMEI:

- a. [EMEI Vehicle G 109](#) – Truck, Utility, Lightweight and Truck, Utility, Lightweight, Winch, MC2 - Land Rover 110 4X4 – Servicing Instruction; and
- b. [EMEI Vehicle G 209](#) – Truck, Utility, Lightweight and Truck, Utility, Lightweight, Winch, MC2 - Land Rover 110 6X6 – Servicing Instruction.

**DETAIL**

3. This EMEI is the authority for units to conduct a general vehicle safety inspection prior to vehicles departing the field training area. The level of inspection is to be determined by the senior maintenance practitioner taking into account the usage the vehicle was subjected to during the field exercise.

4. As a guide to assist maintenance personal in carrying out a general vehicle safety inspection prior to vehicles departing the field training area, refer to the critical item safety check listed in EMEI Vehicle G 109 and EMEI Vehicle G 209. Tasks/items for inspection will be in accordance with the determination of the senior maintenance practitioner after assessing the usage and situation of the vehicle during the field training exercise and the distance for return to parent unit.
