1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

1.1 Product identifier

Product name: GRENADE, HAND, SMOKE - WHITE
Synonym(s):
- EON: 610-010-B1-05-01 • MUNB • NSN: 1330-66-151-0243 • OBJ ID: B438109
- A140 - STOCK CODE

1.2 Uses and uses advised against

Use(s):
- DISTRESS SIGNAL • SIGNALLING FLARE • SMOKE GENERATOR

1.3 Details of the supplier of the safety data sheet

Supplier name: CHEMRING AUSTRALIA PTY LTD
Address: 230 Staceys Rd, Lara, VIC, Australia, 3212
Telephone: +61 3 5220 8500
Fax: +61 3 5282 3545
Email: info@chemring.com.au
Website: http://www.chemring.com.au

1.4 Emergency telephone number(s)

Emergency: +61 (0)402 130005

2. HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

CLASSIFIED AS HAZARDOUS ACCORDING TO SAFE WORK AUSTRALIA CRITERIA

GHS Classification(s):
- Explosives: Division 1.4
- Skin Sensitisation: Category 1
- Respiratory Sensitisation: Category 1

2.2 Label elements

Signal word: DANGER
Pictograms:

Hazard statement(s):
- H204: Fire or projection hazard.
- H317: May cause an allergic skin reaction.
- H334: May cause allergy or asthma symptoms or breathing difficulties if inhaled.

Prevention statement(s):
- P210: Keep away from heat/sparks/open flames/hot surfaces. No smoking.
- P240: Ground/bond container and receiving equipment.
- P250: Do not subject to grinding/shock/friction/rough handling.
- P261: Avoid breathing dust/fume/gas/mist/vapours/spray.
- P272: Contaminated work clothing should not be allowed out of the workplace.
- P280: Wear protective gloves/protective clothing/eye protection/face protection.
- P285: In case of inadequate ventilation wear respiratory protection.

Response statement(s):
- P302 + P352: IF ON SKIN: Wash with plenty of soap and water.
- P304 + P341: IF INHALED: If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing.
- P321: Specific treatment is advised - see first aid instructions.
- P333 + P313: If skin irritation or rash occurs: Get medical advice/attention.
**CHEMICAL REPORT**

**Product name**
GRENADE, HAND, SMOKE - WHITE

**P342 + P311**
If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician.

**P363**
Wash contaminated clothing before reuse.

**P370 + P380**
In case of fire: Evacuate area.

**P372**
Explosion risk in case of fire.

**P373**
DO NOT fight fire when fire reaches explosives.

**P374**
Fight fire with normal precautions from a reasonable distance.

**Storage statement(s)**
P401
Store in accordance with relevant site and storage provisions.

**Disposal statement(s)**
P501
Dispose of contents/container in accordance with relevant regulations.

### 2.3 Other Hazards
No information provided.

## 3. COMPOSITION/ INFORMATION ON INGREDIENTS

### 3.1 Substances / Mixtures

### 4. FIRST AID MEASURES

#### 4.1 Description of first aid measures

**Eye**
If in eyes, hold eyelids apart and flush continuously with running water. Continue flushing until advised to stop by a Poisons Information Centre, a doctor, or for at least 15 minutes.

**Inhalation**
If inhaled, remove from contaminated area. Apply artificial respiration if not breathing.

**Skin**
If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. Continue flushing with water until advised to stop by a Poisons Information Centre or a doctor.

**Ingestion**
For advice, contact a Poison Information Centre on 13 11 26 (Australia Wide) or a doctor (at once). Rinse mouth out with water and give plenty of water to drink.

**First aid facilities**
Eye wash facilities and safety shower should be available.

#### 4.2 Most important symptoms and effects, both acute and delayed
No information provided.

#### 4.3 Immediate medical attention and special treatment needed
Treat symptomatically.
5. FIREFIGHTING MEASURES

5.1 Extinguishing media
DO NOT attempt to extinguish burning explosives. Once product is ignited it cannot be extinguished. Evacuate area and contact emergency personnel.

5.2 Special hazards arising from the substance or mixture
EXPLOSIVE. Product is designed to produce a controlled explosion when activated. May evolve smoke and toxic gases (metal/ carbon/ sulphur/ nitrogen oxides and fumes) when exploded or heated to decomposition.

5.3 Advice for firefighters
Evacuate area and contact emergency services. Exposure to heat may result in detonation, however effects are expected to be limited to the package. Toxic gases may be evolved in a fire situation. Remain upwind and notify those downwind of hazard. Wear full protective equipment including Self Contained Breathing Apparatus (SCBA) when combating fire. Do not attempt to fight fire if other explosives are present. Use waterfog to cool unexploded cartridges. Once the device has ignited the signal will burn until all the composition has been exhausted. It is recommended that a minimum safety evacuation distance of 100 metres be applied if this product is burned in bulk quantities.

5.4 Hazchem code
1YE
1 Coarse Water Spray.
Y Risk of violent reaction or explosion. Wear full fire kit and breathing apparatus. Contain spill and run-off.
E Evacuation of people in and around the immediate vicinity of the incident should be considered.

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures
Clear area of all unprotected personnel. Contact emergency services where appropriate. CAUTION: Heating, impact or static charge may cause explosion.

6.2 Environmental precautions
Prevent product from entering drains and waterways.

6.3 Methods of cleaning up
If cartridges are spilt or containers damaged, contain spillage, then collect and place in suitable containers for disposal. Eliminate all sources of ignition.

6.4 Reference to other sections
See Sections 8 and 13 for exposure controls and disposal.

7. HANDLING AND STORAGE

7.1 Precautions for safe handling
Before use carefully read the product label. Use of safe work practices are recommended to avoid eye or skin contact and inhalation. Observe good personal hygiene, including washing hands before eating. Prohibit eating, drinking and smoking in contaminated areas.

7.2 Conditions for safe storage, including any incompatibilities
Store in a cool, dry, well ventilated area, removed from incompatible substances and foodstuffs. Ensure containers are adequately labelled, protected from physical damage and sealed when not in use.

7.3 Specific end use(s)
No information provided.
8. EXPOSURE CONTROLS/ PERSONAL PROTECTION

8.1 Control parameters

No biological limit values have been entered for this product.

8.2 Exposure controls

Engineering Controls

Avoid inhalation. Mechanical extraction ventilation is recommended when removal of the atmospheric contaminants is required. Maintain dust / fume levels below the recommended exposure standard.

PPE

No PPE has been assigned for this product.

9. PHYSICAL AND CHEMICAL PROPERTIES

9.2 Other information

% Volatiles                        | NOT RELEVANT           |
10. STABILITY AND REACTIVITY

10.1 Reactivity
Carefully review all information in sections 10.2 to 10.6.

10.2 Chemical stability
Stable under recommended conditions of storage.

10.3 Possibility of hazardous reactions
Polymerization is not expected to occur.

10.4 Conditions to avoid
Contact with combustible materials (wood, paper, oil). Contamination with moisture.

10.5 Incompatible materials
Incompatible with oxidising agents (e.g. hypochlorites), acids (e.g. nitric acid), heat and ignition sources. Also incompatible with organic solvents.

10.6 Hazardous decomposition products
May evolve smoke and toxic gases (metal/ carbon/ sulphur/ nitrogen oxides and fumes) when exploded or heated to decomposition.

11. TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

Health hazard summary
Irritant. This product is designed for smoke/gas generation. Over exposure to smoke/gas levels may result in harm and irritation of the eyes, nose and throat. Activating near the face may result in injury or blindness. Individuals with pre-existing respiratory disorders (e.g. asthmatics) may be more susceptible to the development of adverse health effects.

Eye
Irritant. Due to product form and nature of use, the potential for exposure is reduced. However, direct contact with contents or fumes may result in irritation, lacrimation and conjunctivitis.

Inhalation
Irritant. Over exposure to contents may result in respiratory irritation. Persons with pre-existing respiratory disorders are more susceptible to developing adverse health effects and should avoid atmospheres contaminated with smoke/fume. Toxic effects may result from inhalation. May cause sensitisation by inhalation.

Skin
Irritant. Product encapsulation minimises skin contact potential, however contact with contents or smoke may cause irritation, pain and redness. May cause sensitisation by skin contact.

Ingestion
Harmful. Ingestion may result in nausea, vomiting, abdominal pain and diarrhoea. Ingestion is considered unlikely due to product form.

15. REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
Poison schedule A poison schedule number has not been allocated to this product using the criteria in the Standard for the
Product name: GRENADE, HAND, SMOKE - WHITE

Uniform Scheduling of Medicines and Poisons (SUSMP).

Classifications:
- E - Explosive
- Xi - Irritant

Risk phrases:
- R2: Risk of explosion by shock, friction, fire or other sources of ignition.
- R42/43: May cause sensitisation by inhalation and skin contact.

Safety phrases:
- S1/2: Keep locked up and out of reach of children.
- S16: Keep away from sources of ignition - No smoking.
- S23: Do not breathe gas/fumes/vapour/spray (where applicable).
- S24/25: Avoid contact with skin and eyes.
- S34: Avoid shock and friction.
- S41: In case of fire and/or explosion, do not breathe fumes.

Inventory listing(s):
- AUSTRALIA: AICS (Australian Inventory of Chemical Substances)
  All components are listed on AICS, or are exempt.

15.2 Chemical safety assessment:
No information provided.

16. OTHER INFORMATION:

Additional information:
- RESPIRATORS: In general the use of respirators should be limited and engineering controls employed to avoid exposure. If respiratory equipment must be worn ensure correct respirator selection and training is undertaken. Remember that some respirators may be extremely uncomfortable when used for long periods. The use of air powered or air supplied respirators should be considered where prolonged or repeated use is necessary.

HEALTH EFFECTS FROM EXPOSURE:
It should be noted that the effects from exposure to this product will depend on several factors including: frequency and duration of use; quantity used; effectiveness of control measures; protective equipment used and method of application. Given that it is impractical to prepare a ChemAlert report which would encompass all possible scenarios, it is anticipated that users will assess the risks and apply control methods where appropriate.

PERSONAL PROTECTIVE EQUIPMENT GUIDELINES:
The recommendation for protective equipment contained within this report is provided as a guide only. Factors such as method of application, working environment, quantity used, product concentration and the availability of engineering controls should be considered before final selection of personal protective equipment is made.

Abbreviations:
- ACGIH: American Conference of Governmental Industrial Hygienists

GRENADE, HAND, SMOKE - WHITE

OEL  Occupational Exposure Limit
pH   relates to hydrogen ion concentration using a scale of 0 (high acidic) to 14 (highly alkaline).
ppm  Parts Per Million
STEL Short-Term Exposure Limit
STOT-RE Specific target organ toxicity (repeated exposure)
STOT-SE Specific target organ toxicity (single exposure)
SUSMP Standard for the Uniform Scheduling of Medicines and Poisons
SWA  Safe Work Australia
TLV  Threshold Limit Value
TWA  Time Weighted Average

Report Status
This ChemAlert report has been independently compiled by RMT’s scientific department utilising the original Safety Data Sheet (‘SDS’) for the product provided to RMT by the manufacturer. The information is based on the latest chemical and toxicological research and is believed to represent the current state of knowledge as to the appropriate safety and handling precautions for the product at the time of issue. It is an independent collation by RMT of information obtained from the original SDS for this product. Its content has not been authorised or verified by the manufacturer / distributor of the chemical to which it relates.

This ChemAlert report does not constitute the manufacturer’s original SDS and is not intended to be a replacement for same. It is provided to subscribers of ChemAlert as a reference tool only, is not all-inclusive and does not represent any guarantee as to the properties of the product. Further clarification regarding any aspect of the product should be obtained directly from the manufacturer.

While RMT has taken all due care to include accurate and up-to-date information in this ChemAlert report, it does not provide any warranty as to accuracy or completeness. As far as lawfully possible, RMT accepts no liability for any loss, injury or damage (including consequential loss) which may be suffered or incurred by any person as a consequence of their reliance on the information contained in this ChemAlert report.
